Serial No.: 10/821,126 Examiner: David Q. NGUYEN

Title: POSITION DETECTION WITH FREQUENCY SMOOTHING

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir or Madam:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Remarks

This Supplemental IDS is filed in response to the Communication mailed June 25, 2010 in which two of the three "other documents" were crossed off or partially crossed off because there was no publication date provided.

Enclosed herewith is a substitute listing of the same documents with the publication dates indicated. Inasmuch as the Examiner had previously indicated in the Office Action of April 11, 2007 that he had considered the three references in question, and inasmuch as these documents were submitted in full to the USPTO with a PTO-1449 albeit without a complete listing of the publication dates, it is requested that the Examiner indicate that he has considered same on the enclosed substitute listing since all of these documents were obviously already considered and were submitted in good faith.

Once the Examiner indicates he has considered same, Applicants will pursue obtaining a request for a certificate of correction.

If there are fees and/or a petition due with this Statement that is/are for some reason incorrect or missing, the Commissioner is authorized to consider this paper as a substitute for any missing petition and/or to deduct/credit the missing amount or any shortfall/excess from/to our Deposit Account No. 23-0442.

Respectfully submitted,

/Francis J. Maguire/
